SIX-H TEXTILE | SIX-H SOURCING BUSINESS PROFILE

Bangladesh · Woven Textile Specialist

Who We Are

SIX-H TEXTILE connects reliable local manufacturing capabilities with the evolving demands of global textile buyers, fashion houses, and brands.

We are a Bangladesh-based textile sourcing, trading, supply, and indenting specialist focusing primarily on woven textiles for both **Fashion and Home Textile** applications.

Through strategic local mill partnerships and an agile supply ecosystem, we provide flexible, verified, and cost-efficient solutions across **Yarn, Greige Fabrics, and Finished Woven Fabrics** in both Non-Denim and Denim lines.

STANDARD QA

One Connected Textile Ecosystem

Manufacturing Coordination

We eliminate sourcing friction by acting as the unified bridge connecting certified Bangladeshi textile mills with international procurement requirements. We manage the entire process from yarn selection to final shipment.

Indenting Services

Acting as a trusted indenter, connecting buyers directly to audited manufacturers with full transaction security and contract compliance.

What We Do

1. Textile Sourcing

Requirement-driven sourcing across premier woven mills, providing verified technical alignment with design packs and price targets.

2. Greige Fabric

Woven greige fabrics in plain, twill, canvas, and custom constructions for dyeing houses and regional processing facilities.

3. Finished Fabric

Solid dyed, printed, yarn-dyed, and specialty treated fabrics delivered ready for high-end garment manufacturing lines.

4. Trading

Agile commercial trading operations ensuring ready stock access, localized distribution, and flexible supply chains.

5. Manufacturing Coordination

On-site mill supervision, machine allocation coordination, and technical troubleshooting during production.

6. Indenting & Supply

Professional indenting connecting international buyers and large manufacturing houses with full delivery fidelity.

LOOM-STATE PRODUCTION

Greige Woven Fabrics

Dependable loom-state fabric solutions engineered for high-efficiency processing and precise dye penetration.

We supply textile processors and export printers with reliable greige fabrics woven on modern air-jet and rapier looms, ensuring uniform width control and stringent inspection.

KEY CONSTRUCTIONS

- Plain Weave
- Poplin & Sheeting
- Herringbone & Cavalari Twill
- Twill (2/1, 3/1, 2/2,4/1)
- Oxford, 2/2 Matt & Canvas
- Dobby & Ripstop

RAW MATERIAL EXCELLENCE

Yarn Sourcing & Supply

The foundation of every quality textile begins at the spindle. We provide verified yarn procurement tailored to mill requirements.

Rigid Count & Strength Parameters: CSP (Count Strength Product) monitoring ensuring minimal loom stoppage.

Diverse Composition Spectrum: 100% Cotton (BCI, Organic, USA Cotton), Modal, Viscose, and Poly Blends.

Specialty Functional Yarns: Core-spun spandex, slub yarns, melange shades, and sustainable cotton-jute fibers.

Direct Spinning Mill Alliances: High-volume capacity coordination with Bangladesh's leading spinning units.

Yarn Count Range Supported: Ne 6/1 up to Ne 80/1 in Single & Folding formats.

Finished Woven Fabrics

Comprehensive dyeing, printing, and specialty finishing adhering to international quality and eco-standards.

We manage the transition from raw greige to premium finished fabric, developing solutions according to customer shade palettes, performance requirements, and evolving market trends.

We do 100% Cotton, Poly Cotton, Poly Cotton Spandex, 100% Linen, Linen Cotton, Linen Viscose, Modal, Slub Cotton Spandex, Tencel Lyocell & Blends

Dyeing

Solid reactive, pigment, disperse, and vat dyeing.

Yarn-Dyed

Classic checks, tartans, stripes, Flannel and chambrays.

Printing

Rotary print, flatbed, and high-definition digital prints.

Finishing

Peach skin, calendering, water-repellent, and easy-care.

Fashion Woven Fabrics

Shirting Fabrics

FORMAL & CASUAL

Premium cotton, Linen blends, Flannel and yarn-dyed designs engineered for precise drape and comfort.

Denim Solutions

JEANSWEAR

Authentic rigid, comfort stretch, and super-stretch denim constructions for bottoms and jackets.

Weight: 4.5 oz to 14.5 oz • Rigid, Comfort Stretch & Dual-Core Super Stretch.

Bottom Weights

TROUSERS & CHINOS

Durable twills, canvas, and stretch wovens designed for tailored bottoms and casualwear.

GSM Range: 70 GSM to 360 GSM • Cotton, Poly-Cotton, Spandex, Tencel, Linen blends.

Lightweight Wovens

DRESSES & TOPS

Soft-flowing poplins, voiles, and blends perfect for summer collections and lightweight fashion.

INTERIOR APPLICATIONS

Home Woven Fabrics

Engineered for high durability, superior rub-fastness, and a luxury tactile feel for interior spaces.

Bedding & Sheeting

High thread-count percales, sateens, and yarn-dyed fabrics for premium bed linens.

Decorative & Upholstery

Structured wovens, canvas, and heavy twills for cushion covers and lifestyle accessories.

Curtains & Table Linen

Beautifully draping fabrics with customized widths and optional protective finishes.

Specialty & Sustainable Wovens

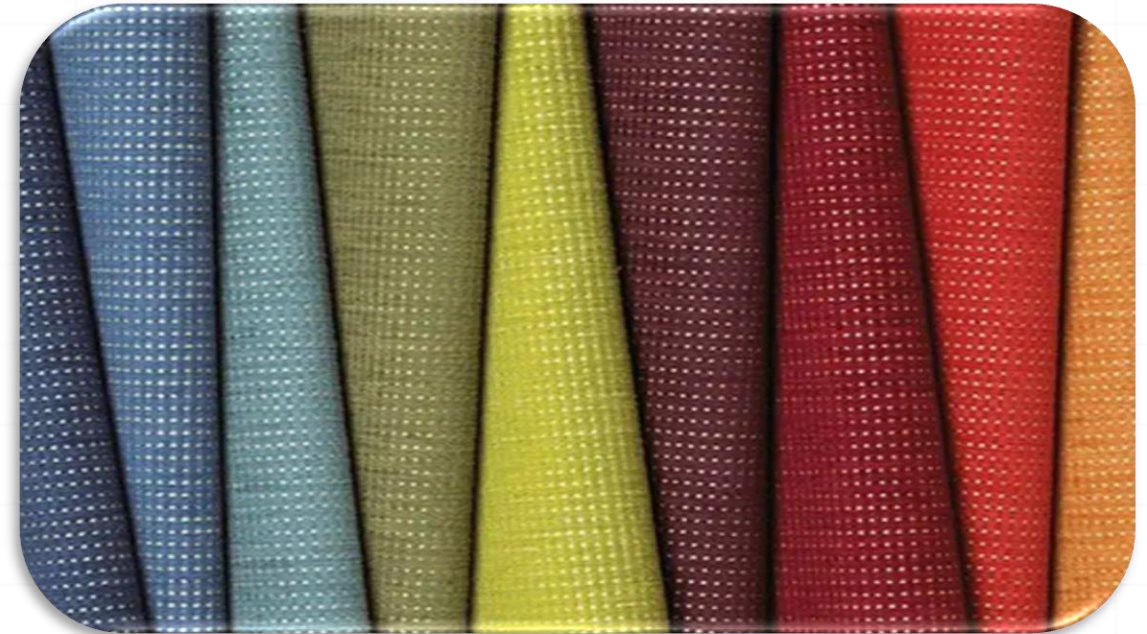

We support the industry's shift towards sustainable and value-added textiles, sourcing responsibly manufactured materials.

- **Organic Cotton:** Sourced from certified supply chains for eco-conscious collections.
- **Recycled Blends:** Integrating recycled polyester and cotton to reduce environmental impact.
- **Linen & Cellulosic Blends:** Breathable, natural fibers including Tencel and Modal blends.
- **Functional Finishes:** Water-repellent, anti-microbial, and soil-resistant treatments for performance wear.

INDUSTRY REFERENCE CAPABILITY

Sourcing aligned with global sustainability standards.

Cotton
Initiative

Diversified Manufacturing

Home & Kitchen

Dedicated terry towel manufacturing and dining accessories.

- ✓ Premium Terry Towels
- ✓ Kitchen Napkins & Towels
- ✓ Dining Table Napkins
- ✓ Chef & Kitchen Aprons

Baby & Maternity

Soft, safe, and highly durable textiles for infant care and maternity support.

- ✓ Baby Carrier Wraps
- ✓ Infant Slings
- ✓ Mother Breastfeeding Covers
- ✓ Soft Cotton Swaddles

Bags & Accessories

Eco-friendly carrier solutions for retail, fashion, and corporate promotions.

- ✓ Premium natural jute & durable cotton canvas
- ✓ Tote bags & heavy-duty shoppers,
- ✓ Precision screen & printing, embroidery
- ✓ High-durability stitching and construction tailored for global supermarket and fashion brands

From Requirement to Supply

01

Requirement

Buyer brief, target GSM
& specifications.

02

Development

Lab dips, strike-offs &
sample yardage.

03

Sourcing

Yarn & greige allocation
at vetted mills.

04

Coordination

Weaving & wet
processing management.

05

Quality

Inspection, shrinkage &
shade band control.

06

Supply

Final packing,
documentation &
dispatch.

STANDARDS & CONTROL

Quality at Every Stage

Consistent quality requires continuous surveillance. We monitor critical parameters from yarn to final woven fabric.

- Yarn Strength & Count
- Fabric GSM & Width
- Dimensional Stability
- Color Fastness
- Tear & Tensile Strength
- Shade Consistency
- Visual Appearance
- 4/10-Point Inspection System

Every shipment is backed by technical reports and transparent communication, ensuring alignment with AQL standards.

Local Strength. Global Vision.

"We combine Bangladesh's strong textile manufacturing capabilities with professional sourcing, supply, and business coordination to create dependable textile solutions for modern markets."

Why Partner With Us

Reliable Local Network

Deep alliances with reputable spinning mills, weaving units, and dye-houses across Bangladesh.

Flexible Sourcing

Agile production handling both high-volume runs and bespoke developments with customized minimums.

Woven Textile Focus

Specialized knowledge strictly focused on the construction, processing, and trends of woven fabrics.

Manufacturing Support

On-site mill supervision and technical troubleshooting during production to ensure seamless execution.

Quality-Focused Approach

Rigorous test protocols covering dimensional stability, colorfastness, and physical strength.

Customer-Centric Service

Rapid sampling turnaround, commercial transparency, and a commitment to on-time delivery.

The SIX-H Commitment

Our business philosophy is built on six foundational pillars, ensuring every yard of fabric meets the highest standards of integrity.

Honesty

Transparency in quality and timelines.

High Quality

Uncompromising technical standards.

Hard Work

Dedication to solving sourcing challenges.

Harmony

Building symbiotic mill and buyer alliances.

High Performance

Agile and responsive commercial execution.

Honor

Respecting commitments and building trust.

Our Vision & Mission

OUR VISION

“To be the most trusted and preferred textile sourcing partner, delivering reliable products and flexible solutions across the global woven textile value chain.”

Driving continuous innovation, ethical compliance, and sustainable textile growth from Bangladesh to the global market.

OUR MISSION

- **Connect Customers with Reliable Solutions:** Eliminating supply friction through transparent and audited partnerships.
- **Support Quality-Focused Sourcing:** Maintaining rigorous technical benchmarks from yarn selection to final shipment.
- **Foster Strong Mill Alliances:** Cultivating symbiotic bonds with top manufacturing units and global retail brands.
- **Provide Flexible & Agile Service:** Responding rapidly to changing consumer dynamics and seasonal demands.
- **Build Sustainable Value:** Prioritizing eco-friendly fibers, ethical practices, and long-term relationships.

Our Core Values

Respect

We honor diversity and treat everyone with dignity across our global manufacturing and sourcing network.

Ownership

We are accountable for our actions and relentlessly pursue excellence in every yard of fabric we deliver.

Trust

We foster trust through open communication, transparency, and reliable commercial commitments.

Integrity

We uphold the highest standards of ethical conduct in all our sourcing and business practices.
